

AUTOMATED EXTERNAL DEFIBRILATORS (AED)

Store Catalogue

ABOUT

All our OCD Training, Assessing & Consultancy AEDs are compliant in all Australian States and Territories under their Regulatory Codes of Practice as well as Safe Work Australia. Our AEDs are the peace of mind you need for your family, friends, customers, and employees when you are out and about. When things happen, it will be the first article you will grab and rely on. We have AEDs and accessories available for all facets of our lives in Australia. We have package deals to cater for the start-up and expanding enterprises that can take advantage of the GST free status. We also cater for bulk orders and specific requirements so please contact us for a free no obligation estimate.

Why Do We Need Public Access AEDs in the Home, Workplace and Everywhere?

Simply put, the heart maintains circulation. We all know that without circulation life cannot be sustained. Many years ago, there was a breakthrough in medical science when the defibrillator was invented. But these original devices required the intervention of a clinician.

Then Automated External Defibrillators (AEDs) were invented. AEDs brought clinical empowerment into the hands of the lay rescuer – and what a breakthrough that was!

With sudden cardiac arrest being the leading cause of death in the Western World, we strive to give so many people a second chance. From a single home use device to a national monitored roll-out, we bring to the market the absolute best public access **AED** solution for every environment.

At **OCD Training, Assessing & Consultancy**, we offer the **HeartSine®** and the **LIFEPAK®** Automated External Defibrillators (AED) in our store along with their respective consumables.

Both the **HeartSine®** and the **LIFEPAK®** AEDs have a full eight (8) year warranty and come complete with their respective Pad-Paks with the **HeartSine®** having an Adult Pad-Pak and the **LIFEPAK®** having an Adult and Child Pad-Pak included with each device.

These Pad-Paks are single use and need to be replaced after each episode. Replacement Pad-Paks have a four (4) year expiration for both the **HeartSine®** and the **LIFEPAK®** models.

You can view more information on each product in the description area of each item.

We also stock **AED Accessories** such as **cabinets, signs, cases, preparation kits, wall charts, wall brackets** and **stickers** all available from our store.

We also offer package deals for those people and enterprises starting up or expanding who wish to take advantage of the GST free status.

So, whether you are looking to buy an **AED** for your **car, home, business, shopping centre, caravan, school, sporting club, childcare centre, bus** or **wherever**, we will have an AED solution for you.

Contact us at orders@ocdtac.com if you have any questions about any of our AED Solutions.

HEARTSINE AEDs

HEARTSINE SAMARITAN PAD 500P

The only device on the market that contains the technology that determines through the defibrillation pads, whether your compressions are in fact effective through its dynamic CPR feedback technology.

A sophisticated semi-automatic defibrillator for adult or paediatric use, inside a lightweight and easy-to-operate system.

Consists of PAD in carry case with adult Pad-Pak and full 8-year warranty.

The top picture is the unit in the padded carry case.

The bottom picture is the unit outside of the padded carry case.
