

CPR & LVR Course

This course covers the skills and knowledge required to perform a rescue from live low voltage (LV) electrical apparatus in an electricity supply industry (ESI) environment. This does not include overhead lines and underground cables. It includes the organisational workplace requirements for the inspection and use of live LV panel rescue equipment, and how it applies to ESI workers to meet work health and safety (WHS)/occupational health and safety (OHS), mobility, and mutual aid requirements.

Completing the course will provide an individual with the skills and knowledge to carry out and complete the LV panel rescue procedure and to perform cardiopulmonary resuscitation (CPR) on a casualty in a range of situations. It consists of real-life practical skills and knowledge to allow the participant to be assessed as competent in providing CPR in line with Australian Resuscitation Council (ARC) Guidelines as well as rescue procedures from an LV apparatus.

Due to the high-risk nature of the industry, the program is regarded as a mandatory requirement for specific industries in which employees are required to develop or maintain their professional skills.

This unit of competency stands alone and incorporates the content of the following units:

- HLTAID009 Provide cardiopulmonary resuscitation.
- UETDRMP007 Perform a rescue from a live LV panel.

Provider of Training and Assessment

This course is delivered and assessed on behalf of
Allens Training Pty Ltd RTO 90909

by

OCD Training, Assessing & Consulting

Important information prior to enrolment

Unit Being Delivered

The following unit(s) will be awarded to successful participants in this course. The certificate will be issued by Allens Training Pty Ltd RTO 90909.

- **HLTAID009 - Provide cardiopulmonary resuscitation**
- **UETDRMP007 - Perform rescue from a live low voltage panel**

To view full unit details please visit www.training.gov.au

Course Delivery

This course will be delivered:

- In the workplace or at an OCD Training, Assessing & Consulting facility.
- Online learning with face-to-face assessment

Entry Requirements

An individual undertaking this course with Allens Training Pty Ltd will need to demonstrate the following to be eligible for entry:

- Physical capability to be able to meet the demands of the practical demonstration skills including CPR and performing rescue breathing techniques on manikins. Physical fitness to be able to meet the demands of the practical demonstration skills including manual handling in the rescue of a mock casualty.
- Sufficient English language, literacy, numeracy, and visual interpretation skills to successfully complete the course.
- Personal safety equipment (PPE) must be provided by the student and worn during practical sessions.

Important note: In order to issue an accredited certificate, CPR must be performed on the floor with no exemptions. Participants will be required to demonstrate rescue breathing techniques on manikins. Participants will not have the opportunity to request an exemption from providing rescue breaths if they wish to gain a competent result in the Unit of Competency and/or qualification.

Online study options: The online learning program can be found in the student portal. Students must have access to a computer, smart phone, tablet, or other electronic device with access to the internet to complete the online studies and practical assessment.

Course Duration (face to face)

- **Face to Face – 5 hours** (minimum) – full face to face course
- **Online delivery with face-to-face Practical assessment** – self paced online learning with a scheduled **30 minute** face to face practical assessment.
- **Refresher** – 3.5 hours (minimum) – with face-to-face practical assessment.

Assessment Requirements

Individuals undertaking this course will be expected to complete both written and practical assessment tasks. These are detailed in the sections following.

Certificate Renewal Requirements

Unit	Period
HLTAID009 - Provide cardiopulmonary resuscitation	12 months
UETDRMP007 - Perform rescue from a live low voltage panel	12 months

Learners Rights, Responsibilities and Support, including Complaints

Please note that enrolment to this course is made with Allens Training Pty Ltd RTO 90909. Please refer to the student handbook located on the RTO website allenstraining.com.au (<https://allenstraining.com.au/students/student-handbook>) for all details relating to rights and responsibilities including complaints and appeals.

What happens at the course?

Learning Activities

Delivery of course information and learning activities.

Assessment Activities

Assessments conducted during face-to-face training session(s) include:

- **Performance tasks** – The assessor must observe the following performance tasks:
 - Adult CPR
 - Infant CPR
 - Inspection and placement of rescue equipment
 - Low Voltage Panel Rescue
- **Theory assessment** – A written assessment consisting of multiple-choice questions. The student must successfully complete all assessment questions.
