

Remote Advanced First Aid Course

This course is designed to provide the knowledge and skills required by an individual to provide an advanced first aid response and emergency life support to a casualty in a remote or isolated situation. The course can be delivered in any industry where persons may be required to provide first aid in locations beyond the reach of timely medical assistance, as part of their role at work or in the community.

With instruction and practical training in line with legal, workplace and community considerations, Australian Resuscitation Council guidelines and other Australian national peak clinical bodies, this advanced remote first aid course teaches the skills and knowledge to recognise emergencies and provide immediate and effective CPR, first aid treatment and oxygen therapy in a range of complex situations, including remote, community and workplace settings. Furthermore, simulated real-life situations will be used to develop the skills and knowledge for using and maintaining specialised equipment for the provision of first aid, resuscitation, and oxygen therapy, as well as providing treatments specific to advanced conditions, such as inserting an appropriate basic airway adjunct, using tourniquets and haemostatic dressings for life-threatening bleeding, and administering oxygen safely at the correct flow rate.

Provider of Training and Assessment

This course is delivered and assessed on behalf of
Allens Training Pty Ltd RTO 90909

by

OCD Training, Assessing & Consulting

Important information prior to enrolment

Unit Being Delivered

The following unit(s) will be awarded to successful participants in this course. The certificate will be issued by Allens Training Pty Ltd RTO 90909.

- HLTAID009 - Provide cardiopulmonary resuscitation.
- HLTAID010 - Provide basic emergency life support.
- HLTAID011 - Provide First Aid
- HLTAID013 - Provide First Aid in remote or isolated site.
- HLTAID014 - Provide Advanced First Aid
- HLTAID015 - Provide advanced resuscitation and oxygen therapy.

Course Delivery

This course will be delivered:

- In the workplace or at an OCD Training, Assessing & Consulting facility
- Online learning with face-to-face assessment

Entry Requirements

An individual undertaking this course with Allens Training Pty Ltd will need to demonstrate the following to be eligible for entry:

- Physical capability to be able to meet the demands of the practical demonstration skills including CPR

Important note: In order to issue an accredited certificate, CPR must be performed on the floor with no exemptions.

Pre-course study options: the pre-course study workbook can be found in the student portal. Students must have access to a computer, phone, tablet, or other electronic device with access to the internet to complete the pre-course study online.

Online study options: The online learning program can be found in the student portal. Students must have access to a computer, smart phone, tablet, or other electronic device with access to the internet to complete the online studies and practical assessment.

Course Duration (face to face)

- **Face to Face minimum duration:** 1110 minutes
- **Online delivery with face-to-face Practical assessment minimum duration:** 480 minutes

Assessment Requirements

Individuals undertaking this course will be expected to complete both written and practical assessment tasks. These are detailed in the sections following.

Certificate Renewal Requirements

The units have the following recommended renewal periods:

UNIT	PERIOD
HLTAID009 - Provide cardiopulmonary resuscitation	12 months
HLTAID010 - Provide basic emergency life support	36 months
HLTAID011 - Provide First Aid	36 months
HLTAID013 - Provide First Aid in remote or isolated site	36 months
HLTAID014 - Provide Advanced First Aid	36 months
HLTAID015 - Provide advanced resuscitation and oxygen therapy	12 months

Learners Rights, Responsibilities and Support, including Complaints.

Please note that enrolment to this course is made with Allens Training Pty Ltd RTO 90909. Please refer to the student handbook located on the RTO website allenstraining.com.au (<https://allenstraining.com.au/students/student-handbook>) for all details relating to rights and responsibilities including complaints and appeals.

What happens at the course?

Learning Activities

Delivery of course information and learning activities.

Assessment Activities

Assessments conducted during face-to-face training session(s) include:

- **Practical scenarios and performance tasks:** – The assessor must observe the following performance tasks:
 - Performance Task – Adult CPR (incl. 2 mins of uninterrupted single rescuer CPR, 2 mins bag-valve-mask and 2 mins compression two-rescuer CPR, defibrillation, selecting and inserting appropriate airway adjunct, managing oxygen equipment appropriately and managing an unconscious breathing casualty)
 - Performance Task – Infant CPR

- Performance Task – Anaphylaxis
- Performance Task – Asthma
- Performance Task – Choking
- Performance Task – Non-life-threatening-bleeding, minor wound cleaning & shock
- Performance Task – Nosebleed
- Performance Task – Fractures & dislocations
- Performance Task – Sprains and strains
- Performance Task – Envenomation (snake/ funnel-web spider bite)
- Performance Task – Hyperthermia
- Complete a first aid incident report form based on the simulated first aid scenario.
- Simulated first aid scenario – first aid response in a remote site (incl. Basic triage for a multiple casualty incident (hypothermia, life-threatening bleeding (using tourniquets and haemostatic dressings), and head, neck, and spinal injuries)
- Performance Tasks – Manage life-threatening bleeding and provide oxygen.
- Complete a first aid incident report based on Performance Task - Manage life-threatening bleeding and provide oxygen.
- Performance task – Maintain resuscitation equipment.
- **Theory assessment** – A written assessment consisting of multiple-choice questions. The student must successfully complete all assessment questions.
